

Marques Houston, Never say good-bye

Good-bye.

Farewell

Well it sames like only yesterday,

When we started making our way,

I knew it was a start to something makin'up some magic moments.

I know I had a friend that would be down 'til the end,

Stick around through the thick and the thin,

And it is the time we depart

In our lives,

As bright as the stars in the sky.

Chorus:

And we'll be movin

But we'll never say good-bye (Never say good-bye),

This maybe farewell my friend

But we'll never say good-bye

I wanna make a vow to you, cuz I'm feeling full inside,

This won't be the end my friend this is only farewell not good-bye.

And we'll be movin' on and on

But we'll never say good-bye,

This maybe farewell my friend,

But we'll never say good-bye,

Never(Never),

said Never (Never),

said Never Never Never Never will we say good-bye whoh

hoh hoh hoh hoh
