

# Marques Houston, Never Say Goodbye

Goodbye, farewell  
Well it seems like only yesterday  
When we first started making our way  
I knew it was a start of something  
Makin' up some magic moments  
I knew I had a friend that would be down until the end  
Stick around through the thick and the thin  
And now it is the time for parting in makin' our lives  
As bright as the stars in the sky

And we'll be movin' (On and on)  
But we'll never say goodbye (Never say goodbye)  
This may be farewell my friend  
But we'll never ever say goodbye

I wanna make a vow to you  
'Cause I'm feelin' full inside  
This is won't be the end my friend  
This is only farewell not goodbye

And we'll be movin' on and on  
But we'll never say goodbye  
This may be farewell my friend  
But we'll never ever say goodbye

Never (Never)  
Said never (Never)  
Said never, never, never, never will we say goodbye, whoa, yeah
