

# Marques Houston, Right For Me

So Right For Me

v 1

Hey baby tell me your name  
And tell me where you're from  
Give me your number  
Let me call you up  
Sometime, girl I think you're so fine  
And I thought maybe we could hook up  
and go out on the town  
Hop in my ride and let me show you 'round my hood  
Thinkin' on the first

Its all good  
I don't wanna waste your time  
I don't wanna pressure you  
I really wanna get next to you  
Baby you . . .

Chorus

Baby you so right for me  
Baby you so fly to me  
Baby you and I could be  
(You and I were meant to be girl)  
Can't you see, so right for me

v 2

Can't blame you  
Overprotected of an open heart  
Looking for a reason to break this heart  
Cause I know what you want  
Sweet lady, give me a chance  
and Ima prove you wrong  
I got a feeling we can get along just fine  
Never mind the guys that come with different lines

See I don't want to waste your time  
I don't want to pressure you  
I really wanna get next to you  
Baby you . . .

Chorus

Baby you so right for me  
Baby you so fly to me  
Baby you and I could be  
(You and I were meant to be girl)  
Can't you see, so right for me

v 3

Girl I'm telling you I need a chance baby  
The other girls I know are all the same  
I really need someone to know me  
Love me, touch me oh girl  
Like you baby, I know you meet a lot of guys this way, yea

See I don't want to waste your time  
I don't want to pressure you  
I really wanna get next to you  
Baby you . . .

Chorus x 3

Baby you so right for me  
Baby you so fly to me  
Baby you and I could be  
Can't you see, so right for me
