She might be on the pole or all up against the mirror
Lipstick with all the glitter
Wearin them heels thats red
(And you kno) She got that body trickin that body
(And you kno) She got that booty quakin that booty

[chorus:]

I always seem to fall in love at the strip club
I was only lookin for a lap dance and there she was
Up on that stage gettin that cash and there she was
I damn near tipped her all I had
Tell me how I always fall in love
That strip club love
Gettin love at the club aint what a nigga's supposed to do
But I cant help it yall
This playa done took a fall
