

Marques Houston, With You

Being with you is like:

When I wake up in the morning I smell that good old breakfast that my mama used to make..

Being with you is like..

The feeling that you get when all your friends surprise you on your birthday..

Being with you is like

Like I made the last shot and everybody's screaming my name

Being with you is like

It's like my pocket's full of dough and I ain't worry about a damn thing..

When I think about the time nothing better comes to mind I wanna spend time with you all the damn

Just think bout your time had got me wanting you to come through and spend time like we always do

Being with you is really the best with you, it makes life worth going through ain't nobody got a body

Cuz my time with you meets my needs, ain't gotta go looking in the streets it's you ain't nothing bet

Being with you is like..

Winning an award after working so damn hard

Being with you is like

When the man at the dealership hands over the keys to my new car

Being with you is like..

When the check comes in the mail after being broke for so long

Being with you is like..

It's like getting out the PEN and shawtys there to take you home..

When I think about the time nothing better comes to mind I wanna spend time with you all the damn

Just think bout your time had got me wanting you to come through and spend time like we always do

Being with you is really the best with you, it makes life worth going through ain't nobody got a body

Cuz my time with you meets my needs, ain't gotta go looking in the streets it's you ain't nothing bet

It's all about the freaky things we doo

And I know I know..

You like it just as much..

As I doo

Baby I ain't never tried to hit and run.. I'm just tryna make you the only one

I'll be timing you on the regular Cuz ain't nothing better then time with you

Oh oh oh

Let me break it down and tell you what the time is like

Whooooee.. time with you is likee

It's like going to the strip club and ain't gotta pay for none of that strip love

Whoa time with you is like

Like a closet full of air force.. low white, my size

Being with you is like..

Like being the first nigga in the hood with black drop tops 645

Being with you

Being with you is really the best with you, it makes life worth going through ain't nobody got a body

Cuz my time with you meets my needs, ain't gotta go looking in the streets it's you ain't nothing bet

Being with you.
