

# Marshmello, Here With Me (Feat. CHVRCHES)

can i tell you something  
just between you and me  
when I hear your voice  
I am I feel finally free  
every single word is perfect  
as it can be  
and I need you here with me

when you let me up  
I know I'll never fall  
I can speak to you  
by saying nothing at all

every single time  
I found it harder to breathe  
cause I need you here with me

every day  
you're saying the word  
and I want you to say  
there's a pain in my heart  
and I won't go away  
now I know i am falling in deep  
cause I need you here with me  
every day  
you're saying the word  
and I want you to say  
there's a pain in my heart  
and I won't go away  
now I know i am falling in deep  
cause I need you here with me

I think o see your face in every place  
that I go  
I try to hide it  
but I know that it;s gonna show  
every single night I find harder to sleep  
cause I need you here with me

every day  
you're saying the word  
and I want you to say  
there's a pain in my heart  
and I won't go away  
now I know i am falling in deep  
cause I need you here with me  
every day  
you're saying the word  
and I want you to say  
there's a pain in my heart  
and I won't go away  
now I know i am falling in deep  
cause I need you here with me

can i tell you something  
just between you and me  
when I hear your voice  
I am I feel finally free  
every single word is perfect  
as it can be  
and I need you here with me
