Martin Jensen, Solo Dance

In the faded light
You touch my body
I can feel your hands on my skin
Think you're got me right
When you walk with me
But you're just in my way

I came the party on my own
Don't need nobody in my soul
I get down to the beat I've loose control
I go, so, so low

You can cool it down
I get it fool around
Just wanna dance, dance, dance
I know you want me
But I don't care baby
Just wanna dance, dance, dance

Dance, dance, dance

In the shade of light
You've moving closer
We're on our way to cross the line
Think you've got me right
Where you want me
But it's all in your mind

I came the party on my own
Don't need nobody in my soul
I get down to the beat I've loose control
I go, so, so low

You can cool it down
I get it fool around
Just wanna dance, dance, dance
I know you want me
But I don't care baby
Just wanna dance, dance, dance
