

Martin Nievera, Forevermore

There are times when I just want to look at your face
With the stars in the night
There are times when I just want to feel your embrace
In the cold night I just can't believe that you are mine now.

You were just a dream that I once knew
I never thought I would be right for you
I just can't compare you with anything in this world
You're all I need to be here with forevermore.

All those years I long to hold you in my arms
I've been dreaming of you
Every night I've been watching all the stars that fall down
Wishing you would be mine I just can't believe that you are mine now

Time and again there are changes that we cannot have
Sure as time gets going on and on
My love for you will be forevermore.
I just can't believe that you are mine now

You were just a dream that I once knew
I never thought I would be right for you
I just can't compare you with anything in this world
As endless as forever

Our love will stay together
You're all I need to be with forevermore
(As endless as forever) (Our love will stay together)
You're all I need to be with forevermore
