

Martin Nievera, No Way To Treat A Heart

I've always thought our love was meant to be
And now you threw it all away
You went and took the very best of me
You left me all alone with nothing to say

So I picked up what was left of me
Find a need, a brand new start
And all the while I thought you needed me
You know that really is no way to treat someone's heart

(Now/But) I know for sure
There really isn't any cure
To ease the pain of a broken heart

If there's any doubt,
Maybe we can work things out
Remember it was you who said forever

You always thought that you could have it all
'Reach for the stars', that's what you'd say
Took me for granted and you'd never call
You left me all along and now, what can I say

Let's take a chance, find romance
How could we make this last forever
