

Martina McBride, Anything & Everything

(gordon kennedy/wayne kirkpatrick/billy mann)

What do you dream about?
Look at the stars, baby
All you gotta do is pick on out
And it's there for you
I'll be the one who makes
You every dream come true

Close your eyes and baby
Make a wish and baby
I'll give you anything and everything
The sky's the limit and my heart is in it
I'll give you anything and everything
Anything and everything

Where do you want to go?
Look at the world, baby
All you gotta do is just say so
And I'll take you there
Oh yeah, you know that
Love can take you anywhere

Close your eyes and baby

Make a wish and baby
I'll give you anything and everything
The sky's the limit and my heart is in it
I'll give you anything and everything
Anything and everything

I could spoil you
Make it easy
Make you happy if you let me
Won't you let me

Close your eyes and baby
Make a wish and baby
I'll give you anything and everything
The sky's the limit and my heart is in it
I'll give you anything and everything
Anything and everything

Close your eyes and baby
Make a wish and baby
I'll give you anything and everything
The sky's the limit and my heart is in it
I'll give you anything and everything
Anything and everything
