

# Martina McBride, I Can't Sleep

I can't sleep for dreaming about you  
When you're gone there's nothing I can do  
But lie awake alone and dream the whole night through  
I can't sleep for dreaming about you

I close my weary eyes  
And see your face  
I hold my pillow tight  
And dream of your embrace  
I know I could use the rest  
But my lonely heart cries out for your caress

I can't sleep for dreaming about you  
When you're gone there's nothing I can do  
But lie awake alone and dream the whole night through  
I can't sleep for dreaming about you

They say absence makes a love grow stronger  
But I don't believe my empty arms can hold out any longer

I can't sleep for dreaming about you  
When you're gone there's nothing I can do  
But lie awake alone and dream the whole night through  
I can't sleep for dreaming about you  
I can't sleep for dreaming about you
