

# Marty Robbins, Do Me A Favour

Do me a favour, let me forget  
I don't want to remember that we ever met  
Please stay away from me, leave me alone  
I've had too many heartaches  
A little too long

Each time you walk by, I don't know why  
But I wanna cry  
And it's always the same when I hear your name  
There's a hurt inside  
Do me a favour, turn my picture to the wall  
Then just one last favour  
Forget me once and for all

Each time you walk by, I don't know why  
But I wanna cry  
And it's always the same when I hear your name  
There's a hurt inside  
Do me a favour, turn my picture to the wall  
Then just one last favour  
Forget me once and for all
