

# Marty Robbins, I Need You To Hold Me Together

Oh, I need you to hold me together  
When I feel like I'm falling apart  
I need you to hold me together  
Till I gain control of my heart

Darlin', you are the one that can help me  
And you are the one I can trust  
'Cause I've been through some nights bein' lonely  
And I've seen how dreams turn into dust

But with you it's been so different  
You brought me sweet love again  
Be kind to my heart, don't let love fall apart  
When it's about to begin

I need you to hold me together  
When I feel like I'm falling apart  
Yes I need you to hold me together  
Till I gain control of my heart

But with you it's been so different  
You brought me sweet love again  
Be kind to my heart, don't let love fall apart  
When it's about to begin

I need you to hold me together  
When I feel like I'm falling apart  
Yes I need you to hold me together  
Till I gain control of my heart  
Till I gain control of my heart
