

Marty Robbins, Laurali

Lauraili (lauraili)

Where have you gone without me

Why have you left me all alone

Lauraili (lauraili)

I thought you cared about me

I know your heart's made of stone

I walk through the valley where we used to wander

Your name, the night when sad, you cried

Lauraili (lauraili)

Only sad echoes answer

An echo that tells me goodbye

I walk through the valley where we used to wander

Your name, the night when sad, you cried

Lauraili (lauraili)

Only sad echoes answer

An echo that tells me goodbye
