

# Marty Robbins, Turn The Lights Down Low

Turn the lights down low let your feelins go  
Now's the time when dreams come driftin' in  
Turn the Hi-Fi on play that certain song  
One that brings the memories back again

Things that might have been  
If you kept our love closer to your heart  
Safe from other lips that tore it all apart  
Then I wouldn't hide teardrops deep inside  
Dream along when lights are turned down low  
And dream along when lights are turned down low  
When lights are turned down low
