

# Marty Robbins, Way Out There - 1976

[ yodel ]

A lonely spot I know where no man may go where the shadows have all the room  
I was ridin' free on this old SP hummin' a southern tune

When a man came along made me hush my song kicked me off way out there

[ yodel ]

As she was passin' by I caught her on the fly and I climbed in an open door

Then I turned around to that desert ground I would see no more

And as I rode away I heard the pale moon say sure gets lonesome way out there

[ yodel ]
