

# Marty Robbins, Why Keep Wishing

You only want me 'round  
When someone turns you down  
You always think of me  
As just a friend in need  
I wish you were my own  
But still I'm all alone  
So why keep wishin'  
When I know that you don't care

Each time your new love strays  
I think you're back to stay  
But then you go away  
And leave me so lonely  
I guess it just can't be  
You're not in love with me  
So why keep wishin'  
When I know that you don't care

Each time your new love strays  
I think you're back to stay  
But then you go away  
And leave me so lonely  
I guess it just can't be  
You're not in love with me  
So why keep wishin'  
When I know that you don't care
