

# Marvelous 3, Get Over

Molly went off on a new vacation  
Said she got tired of the radio station  
That was playin' that song that her boyfriend wrote  
All he did was change up a couple of notes  
It's supposed to mean one thing, it became another  
Next thing you know you're a brand new mother  
Of a bad hangover hangin' over the bed  
The cats take turns tryin' to fuck with your head

All I know is this ain't how it's supposed to be now  
All I know, yeah this might leave a mark

Chorus:

'Cause you should never get over me  
'Cause I will never get over you  
And if I never get over the fact that you're gone  
Then I'll remember to forget about you

Tuesday comes and you take out the trash  
And you're sweatin' so hard that you got a big rash  
'Cause you know she fell harder for the beefcake guys  
Money for their drugs and their big fat lies  
But hey, relax, she's gotta come back  
It ain't so good on that side of the tracks  
Where the Lonely Hearts Band plays every night  
Where they're rockin' and they're rollin' 'til the broad daylight

All I know is this ain't how it's supposed to be now  
All I know, yeah this might leave a mark

(Chorus)

Yeah, my watch is goin'  
The hands keep on slowin'  
Yeah, every hour  
My drink gets so sour  
So feel the pain and fill it to the top

(Chorus)
