Marvelous 3, No.27

She got the #27
Taken off her license plate
'cause that was my basketball number
Back when we started to date

And I know, it's better to be unfaithful To the people that you liked last year

(chorus) You're still the same You'll never change Always a change You're still the same

She's got a pretty mod cd collection In the glovebox of her car

All the Blur, and The Cure, and Oasis cases Tell me you get struck by stars

And I know, it's better to be unfaithful To the things that you liked last year

(chorus)

(break)
I can't run, I can't hide, this ain't no Marco Polo You've gone and give yourself away And all this time, I just thought that I was crazy

(chorus)
