

# Marvelous 3, Pizza And Wine

Walk to the corner, just another funny feeling  
Sure enough, you were standin like a civil war statue  
It's a steak through the heart without a steak on my plate  
Left just spinning round in circles, darling is there nothing left for me now

You're wasting your time  
I'm nothing like you, you're nothing like me, don't get me wrong  
Don't waste your time, I'm not your type

By next sunday morning I was feeling just fine  
Do you recall me asking if you wanted pizza and wine?  
You said, "eating's not my thing, and the wine just makes me dizzy."  
I know there's other victims will you please just tell me who he is now

What part of all this don't you understand  
If the devil believed in persistence, you'd be put up on the stand  
As Elvis as my witness, I'm the King of Never Knowing What I Want
