

Marvelous 3, Respect

Spends up his sweet time, just because your head's gone sour.
Consolidating misery, hoping that you'll turn the corner.
Forget about the sinking ship, you've made off with the captain.
Catch your flies with honey, then catch some cheap infection.
Coming up rose, but your venus fly trap eats them all.

Chorus

Give me a little respect, now come on just a little.
Takin' every bit of my time, why don't you give a little.
Suckin' up line by line, that's how your story goes.

(repeat)

Why don't you give me just a little respect?
Making lots of money from your daddy's bank account.
Screaming greedy decibels in very large amounts.
Mama needs a bypass, little wilbur's got the flu.
Still you hide behind george washington.
What the hell's wrong with you?
Coming up rose, but your venus fly trap eats them all.

Chorus
