

# Marvin Gaye, The World Is Rated X

Oh the world's situation should be rated X, oh rated X  
Said the world's situation should be rated X, yeah rated X  
Listen people, let only in the movie show  
Take a look outside, I swear the truth is really told  
It's life in living color; fighting, killing, drug-dealing, it's everywhere  
What about the crime? Rated X  
What about the killing, fighting, stealing everywhere?  
They let the children see life destroyed  
But they won't let them see its making  
What happened to God's creations?  
The one thing that really bothers me the most  
Is how we come, how we take the lives of the fold  
The world today is in a grave situation  
Dirty water we can't drink, dirty air, it's so unfair

Na na na... Oh I know something's missing all over the world  
Ooo, rated X (several times over sax solo)  
Oh I know something's missing all over the world

The world's situation should be rated X, rated X  
The world's situation should be rated X, rated X  
What about the crime? Rated X  
What about the killing, fighting, stealing everywhere?  
They let the children see life destroyed  
But they won't let them see its making  
What happened to God's creations?  
Where're the wars, where's the peace?  
Where's the joy, where's the woe for us all?  
Love is kneelin', rated X  
Hate is overweight, rated X  
[...and fade]
