

# Mary Gauthier, Just Say She's A Rhymer

When they ask about us  
As friends always do  
Remember the good times  
Honey, we had a few  
I'll never condemn you  
I'll take all the blame  
You got a good answer  
When they speak my name

Just say she's a rhymer  
And rhymer get restless  
Just say that she's out there in search of a song  
I know I hurt you  
But I never meant to  
Just say she's a rhymer  
Just say she's gone

You know that I loved you  
You know that I tried

You know that it hurt me  
Each time that you cried  
When your crying is over  
And your new life begins  
I won't be around much  
So when you see our friends

Just say she's a rhymer  
And rhymer get restless  
Just say that she's out there in search of a song  
I know I hurt you  
But I sure never meant to  
Just say she's a rhymer  
Just say she's gone  
Just say she's a rhymer  
Just say she's gone
