

Mary Mary, I Got It

The situation is telling me
I should believe all hope is lost
But from the looks of things
I should be crying
But because I know in whom I trust
My heart tells me to rejoice
My faith in you keeps telling me to hold on

~Chorus~

Whatever you want
I got it
Whatever you need
I got it
It's all in me
I got it
I got it (repeat)

Is life just failing me
Times seems to be so hard
Everything crumbles in my face
One dollar short, one day late
Then I remember that maybe
I just forgot to pray
And when I call on You
All You have to say

~chorus~
