

MARYLKA, like them all

It's not always so easy being strange
You're going to find yourself and fly away
And I don't wanna be your friend
You must understand
Life is so short to listen just what they'll say (yea)

And Baby I don't wanna speak these words they're talking
I need to make a story of your light
Shine so bright
But I just want you to know this intention
I've always been the one they wanted to whip

And I say it's louder, crowded with you (like them all)
And I say it's louder, crowded it's true

They're hanging out and sleeping 'till the light is up
Now I know what you feel
We can build a house (yea)
But what will you do in this city life
If my uncle wouldn't stop you and find it across the line (yea)

And Baby I don't wanna speak these words they're talking
I need to make a story of your light
Shine so bright
But I just want you to know this intention
I've always been the one they wanted to whip

And I say it's louder, crowded with you (like them all)
And I say it's louder, crowded it's true

Now it's time to spread your wings
Fly away and take off the wig
Explore the world
And live up to dreams
Biggest dreams
You can do it, I believe
End these empty memories
Stop with fear and take the risk
Biggest risk
Lucky you, lucky me
We can show them how to live
Don't be scared
The world won't end if you wouldn't be like them all
