

Marz, Do What You Do

(feat. Pack and Mumiez)

If you can't hear the voice,
Rock out to the beat
And if you get wild like we get wild,
Put your hands in the air and scream!
Now don't be stirred, let it go.
Do it but you do it, gonna lose control.
Get loose cause I told you so.
We gonna get this party rockin,
Ready, set, go!
Front back side to side,
Front front, back back, side to side
Now move it front back, side to side.
Front front, back back, side to side.
Now move it up, down, round and round,
Now move it up up, down down, round and round
Now move it up, down, round and round
Now move it up up, down down, round and round.
She said!
I love the way that you do what you do, what you do
Baby do what you do what you do
I love the way that you do what you do what you do.
Baby do what you do what you do what you do
I do what they do, yeah we do it so well.
You my little secret baby girl I won't tell
Look at all those haters, their mad as hell
Now I keep stepping while their eye balls swell
Blah blah blah,
We like ha ha ha
The reason all the ladies like la de da
La de de da dee dee day da da
Pour you like the rain, girl you know what I'm saying.
I'm so short bust with it,
What's up fitty,
Girl I'm riding shot gun in the fresh valley
Oh really? nah girl I'm just kidding
So feel it, yeah
I get get there
Do whatever you like
Tell me when you want it, just holler, alright
Make a rondaevue
See a private alley view with a table for two
And she said
I love the way that you do what you do that you do
Baby do what you do what you do what you do
I love the way that you do what you do that you do
Baby do what you do what you do
Front back side to side
Front front, back back, side to side
Now move it front, back, side to side
Front front, back back, side to side
Now move it up down, round and round
Now move it up up, down down, round and round
Now move it up down round and round
Now move it up up down down round and round
She said
She love just what I do
Cause I do what I do so well
The swag so cold they call it ice cold
She said I give her the chills
So let's make the moonlight checkmate
See
Can you take the queen make it a dream
Little mama so sweet like a dacaree

If just sex is like a movie I could change the scene
CUT CUT
Now stop and pose
Let em take couple pics
Go on, let it show
Let me take a couple pics, my private show
Cause you look so good on my camera phone oh, oh
Yeah do this baby
Blue ribbon on top of a blue mercedes
Let me show now rock that
Shine like vegas
Hell boy, you so outrageous
She said
I love the way that you do what you do what you do
Baby do what you do what you do
I love the way that you do what you do what you do
Baby do what you do what you do
Front back side to side,
Front front, back back, side to side
Now move it front back, side to side.
Front front, back back, side to side.
Now move it up, down, round and round,
Now move it up up, down down, round and round
Now move it up, down, round and round
Now move it up up, down down, round and round.
Yeah
If you can't hear the voice, rock out to the beat
And if you get wild like we get wild put your hands in the air and scream
Now don't be scared let it go
And nothing but to do it gonna lose control
Get loose cause I told you so
We gonna get this party rockin, ready set go!
