

Mase, You Made Me

featuring Cheri Dennis

[Intro]

Uh uh

Get Money all over again

Get Money all over again

Get Money all over again

Get Money all over again

'99 Double Up uh uh

Yo when you look in my eyes what chu see?

A sincere man or just a bunch of G

Why second guess the brotha would last

They took a whole clique from the George and the Ave'

The booties in Arbua boats and hoover crafts

So if Biggie could love the dough, Murda could love the cash

Butter Benz, gave the Tahoe to my other half

If she got the Benz then guess what mami have

Why dread it, tell the waiter too much ice in the crib

Blick's so drunk, he think we singing "Nights Like This"

He say when he grow up he want a life like this

Sleep all day and plus you want ice like this?

While girls throwin' head I ain't even touch dice

I ain't trust Don King, how i'ma trust Mike?

I date bull daggers, and I don't trust Dykes

Need a clearer nina, cuz they don't bust right

I ain't stingy, when everybody see the plush life

Buy rims before the benz, so I look just right

Girls love me, try to get the girls that love Mike

All I need is a cup of Kool-Aid, I got enough ice

1- [Cheri Dennis]

All I ever wanted was you for me

Cuz that nigga who I'm with don't give a fuck about me

And all I ever wanted was to be there for you

Cuz that girl who you with don't give a fuck about you

You unhappy, and I see it when you cry

You look like your life has just been minimized

I ain't your man, I'm your man on the side

You just call me when you plan to slide

And if you ever feel like you wanna creep

All you gotta do is just give me a beep

Only way I won't call you back less I'm asleep

Gettin' my money or layin' it wit' a piece

We hit the block, shop alot

She see her man, but she don't wanna drop the top

And you know that don't really mean a thing to me

Can't no girl ever run game with me

You know Mase, got alot of places to be

Spots in Ohio, kick in NC

And I be wit older dudes and know the rules

So if a man pick up the phone I know the code to use

Repeat 1

If you cheat on me, I'ma cheat on you

If you don't speak of me, I won't speack of you

I'll tell you now, we wait about a week or two

Then I know what we could do

We could just get our food and stay in

Cuz people on the block is hatin'

They know your man, and know we datin'

So we gotta do this just stay friends

(OK) Amen

[Both]

I lay back, I zone

You say that it's on

[Mase]

Then the girl try to snatch the phone

So I knew I was happier home
Repeat 1 until fade
