

# Mason Jennings, Never Knew Your Name

If this house is on fire  
You gonna run for the door  
If the door is on fire  
You gonna kneel on the floor  
You get down low enough  
You learn to love the flame  
I've been loving you forever  
But I never knew your name  
I've been loving you forever but I  
We fell in love in the woods  
In the Hollywood hills  
In the death of a friend  
In the bottles and pills  
Through war and at peace  
I've loved you the same  
I've been loving you forever  
But I never knew your name  
I've been loving you forever but I  
Put the ghost in my sail  
Put the spin in my wheel  
Roll me up in your heart  
Aw, make it seem real  
I'm clay in your hands  
I'm the ball in your game  
I've been loving you forever  
But I never knew your name  
I've been loving you forever  
But I never knew your name  
I've been love you forever but I
