

Massive Attack, Come Near Me (ft. Ghostpoet)

We've been here before, don't fear me
Don't stand by the door, come near me
We've been here before, don't fear me
Don't stand by the door, come near me

Quick thought, left or right
Could it be a strong case of fight or flight?
We'd never know you're slightly overworked
And self-conscious
Sweating beads of doubt
This can't be right
Whispering out: "This can't be right, right?"
This ain't like a DVD
Pretty from aftershave
I'm scared life will leave me
Strung out and needing love
Surely I'm as overcome but brimstone won't come to London

But I ain't done
Surely I ain't done
I ain't done, but my mind's on the run

Caused by your never-ending dream
And it ain't what it seems
It ain't what it seems
Know what I mean?

We've been here before, don't fear me
Don't stand by the door, come near me

Monster on the bed, regurgitating out
My is monkey on my buy
Pulling it like puppet strings, slow to react
Tell me what's the matter, love
Life's drive slow-mo
Front crawl in speedos
Fight against the rising tide
Breathe deep, never stop clawing at the light
Clinging on to what we got

But I ain't done
I ain't done
Surely, surely, surely we must overcome
But my mind's on the run
My mind's on the run

It ain't what it seems
Baby girl, it ain't what it seems
No, it ain't what it seems

Too cruel to be mean
To be cruel
Don't wanna lose you

We've been here before, don't fear me
Don't stand by the door, come near me
We've been here before, don't fear me
Don't stand by the door, come near me
