

Masterboy, Children Of The Night

Chorus

Feel like children of the night
let's walk into the light
like children of the night
Repeat chorus

Rap 1

A child is born to the night
will it live to see the light
ghetto life means tears and pain
many people cry in vain

Bridge

This generation
over the nation
we're gonna take control
like revolution's
my contribution
so free your mind and soul

Rap 2

Education is the key
leave your hands off extasy
respect for life and liberty
Masterboy will set you free

Bridge

This generation
over the nation
we're gonna take control
like revolution's
my contribution
so free your mind and soul
