

Masterboy, Different Dreams

Chorus:

Feel like children of the night

let's walk into the light

like children of the night

Repeat chorus

a child is born to the night

will it live to see the light

ghetto life means tears and pain

many people cry in vain

this generation

over the nation

we're gonna take control

like revolution's

my contribution

so free your mind and soul

Repeat chorus(2x)

education is the key

leave your hands off extasy

respect for life and liberty

Masterboy will set you free

this generation

over the nation

we're gonna take control

like revolution's

my contribution

so free your mind and soul

Repeat chorus(2x)
