

# Masterboy, Energy

Let me lift you high  
Up to the sky  
To wonderland my magic-friend  
The stars are shining oh so bright  
On our journey in the night  
To new horizons we are bound  
Atmosphere set me free  
Take me there energy

I give you more  
I give you more  
More more energy

I give you more  
I give you more  
More more energy
