

Mastodon, Colony Of Birchmen

This forest is growing faster than I can tell
Cell structure eats away at a massive swell
Seems however I'm a victim of circumstance
Hunt for ogres and dwarfs
Lion slicer
Run with death
Run with death
White faces coming closer with every step
Earth envelopes taking breath without happenstance
Carve my teeth out ripping through the sheep's head curse
Hunter gatherer
Ridden from the cave
Run with death
Run with death
Gone away
My heart's gone away
Taking everything
My heart's gone away
Take it now
Hunt for ogres and dwarfs
Lion slicer
Run with death
Run with death
Gone away
My heart's gone away
Taking everything
My heart's gone away
Take it now
