## Matchobox Twenty, Can't Let You Go

I'll stick around And see how bad it gets I'll settle down And deal with old regrets You know I I adore you I can't let you go Can't let you go You're part of my soul You're all that I know Can't let you go Is it better now Do you feel like all is fair Can we work it out So it's easier for me to bear Because life It can blind you I can't let you go Can't let you go You're part of my soul You're all that I know Can't let you go Down from the edge I can see where we end I'd give up all my days to go back There was all this wonder And all this magic Is all this wonder Over and done If love were a whisper What could I give you to speak Maybe you're out of my reach I can't let you go Can't let you go You're part of my soul You're all that I know Can't let you go I can't let you go Can't let you go You're part of my soul

You're all that I know
