

# Mates of State, I Got This Feelin'

I've got this feelin' that I've been here before

Nobody can bend the up and down  
As long as you understand  
The long undertow  
The others can hold their breath so long  
So long as they understand  
The long undertow

I've got this feelin' that I've been here before

Nobody can bend the up and down  
As long as you understand  
The long undertow  
The others can hold their breath so long  
So long as they understand  
The long undertow

This couldn't be more ghetto  
You and your daughters and their eyes

I've got this feelin' that I've been here before
