

Mates of State, Sound It Off

You gave up right away
Never too tough to care
You give a brighter way
Never too notice her

What's on the line?
It's not a line

You gave up right away
Never too tough to care
You give a brighter way
Never too notice her

Sound it off, in threes
Do you like the pain?

Set the rocks on fire
It gives you lots of joy
You've only just begun
Set the rocks on fire
You're playing with a loaded gun

Sound it off, in threes
It was especially thorough
As radially we pass these on

Jason:
Take it on the sleeve, it's another twisted road
Tear it from the streets and paste it in the halls
It's Austrian for calm, so call up on your mot
Take it on the sleeve, it's another twisted road

Kori:
And the day lights up
It becomes the cover up
And the day lights up
It becomes your cover up
