

Matisse & Sadko, Me Without Us

I don't want a one, that's not the only pain
Knowing that I'll never see you again

You said after tonight, we never get it back
Said forever we're something that we never had
But you need me tonight, and I'm stuck in the past
And we are something that we suppose to last

I don't want to change you for small talking at the bar
But trust somebody else with the spear keys to my car
I've been up with somebody, not know who they are
I don't have a room for someone else in my heart

I don't want a one, that's not the only pain
Knowing that I'll never see you again
I don't want a kiss and never make up
I don't want to learn to be me without us

Learn to be me without us

Feels like I have nothing
I don't want nothing to lose
Open this bruise for something
Learning how to get over you
Feels like I have nothing
I don't want nothing to lose
Open this skull for something
And I know how to get over you

I don't want to learn to be me without us

Me without us
Learn to be me without us
