When it started it'd be etched into my brain elevation  
the shield that david blazed, into my brain waves  
and i'm raisin' my soul like a sword in ancient days  
when protection surrounded me like the sun's rays  
Started it'd be etched into my brain elevation  
the shield that david blazed, into my brain waves  
and i'm Raisin' my soul like a sword in ancient days  
when protection surrounded me Like the sun's rays
