

Matisyahu, Mama Please Don't Worry

When you think about me
Mama please don't worry
Cause I'll be back with no injury
Before you can call upon me
Not an army that could stop my path
Cause loves all around me
No curse could come upon me
With love I increase
With strength and bounty
No enemy could defeat me
I stand with peace treaty
So please treat me
Pass for entry

When you think about me
Mama Please don't worry
Cause I'll be back with no injury
Before you can call upon me
Not an army that could stop my path
Cause loves all around me
No curse could come upon me
With love I increase
With strength and bounty

Undercurrents move
Your wave will crash
Back to tomorrow
Like the time that passed
Patience now
As a new wave forms
Pieces of your life
Begin to take form
Born in moments
When your heart was torn
When your core took form
Like the oath you swore
the promise you made
On that day
On the roof of the school
where You prayed

Red robe on
Collie up at dawn
My clock is set to work
One Step like a pawn
My queen moves freely
While the king ponders long
From his castle safe from harm
Bet the farm my karma strong
