

# Matt Pond PA, Crickets

the warmth has you taking off your coat  
in the darkness behind the greens and gold  
there's always things you wish you hadn't done  
there's always things you wish you hadn't done

the winter again will help you breathe  
the comfort that comes with less to see  
there's always things you wish you hadn't done  
there's always things you wish you hadn't done
