

# Matt Pond PA, It Is Safe

Let's go for a swim  
out into the waves  
when the lifeguards leave  
it's ours for the day

let's feel like we're brave  
let's give it some meaning  
even if it's shallow  
even if it is fake

it is safe as long as i see you way out in the water  
with no thought of going under  
we could be out here for hours

lying in the sand i fall asleep and dream of the summer  
when we'd slip behind the pool and go with nature  
we'd lie beside the chlorine bottles  
after sometime sleep and dream of summers  
when things could not be so easy

if you're looking for something  
out in the waves  
at least it is something  
you know that you're safe

it is sound as long as i see you way out in the water  
with no thought of going under  
we could be out here for hours

lying in the sand i fall asleep and dream of the summer  
when we'd slip behind the pool and go with nature  
we'd lie beside the chlorine bottles  
after sometimes sleep and dream of summers  
when things could not be so easy

i see birds above the waves sit on the air and wait for something  
i know someday i'll be done with all this waiting  
so i'll lay down on the couch after sometime sleep  
and dream of the summers  
when things could not be so terribly easy
