

# Matt Wertz, Everything's Right

Windows down as the night blows in  
Tap the beat on the wheel as the tires spin  
Until we're there crank the radio  
We'll join in with the songs we know

Hey, everything's right, said everything's right tonight  
Hey, everything's right, said everything's right tonight

Smiles light up as we walk in  
Old conversations begin again  
Nostalgia's thick as the August air  
It takes us back to a time when we didn't care, we didn't care

Hey, everything's right, said everything's right tonight  
Hey, everything's right, said everything's right tonight

Oh, everything's right, said everything's right tonight  
Hey, everything's right, said everything's right tonight  
Hey, everything's right, said everything's right tonight  
Hey, everything's right, said everything's right tonight  
Hey, everything's right, said everything's right tonight

Everything's right...
