

# Matt Wertz, Happy Times

Happy times are here again  
and I've been gone awhile, but you can still call me "friend"  
We could play in the sun, and laugh forever  
I'm so glad that we're back together

'Cause the wait's been good while I was gone  
and the air's been hot and free  
You've been out with other guys, but I want you, I want you to know  
I want you to want me

I missed Wyoming and the Cornerstone  
but now I'm here and it's so good to be home  
It seems like I've been gone forever  
I'm so glad that we're back together

Feels so good, feels so good  
feels so...right

'Cause you know that the wait's been good while I was gone  
(and the air's been hot and free)  
And the air's been hot and free  
(you've been out with other guys, but I want you)  
You've been out with other guys, but I want you, I want you to know  
I want you to want me

I want to go back to the Nelson  
and buck out to the garden  
I want to drive with the top down  
and sing

The happy times are here again  
and I've been gone awhile, but you can still call me "friend"  
We could play in the sun, and laugh forever  
I'm so glad that we're back together  
I'm so glad that we're back together  
I'm so glad that we're back together
