

# Matt Wertz, Tell Me You Love Me

And the tide rolls in  
Rolls over my head  
Blanket warm in the night  
And I feel all the things  
That I've wanted to say  
Come back around

I wait down here  
For your sweet love to come  
And I shed a tear  
For my heart is so numb

Can you tell me you love me  
Can you say it right now  
Can you tell me in one simple word or ever without

Can you see through me  
These disguises I wear  
Can you find in me secrets untold

Can you tell me you love me  
Can you say it right now  
Can you tell me in one simple word or ever without

But it all comes around  
As I trip through the words  
That I've wanted to say for so long  
Can you hear me  
Can you hear me

Can you tell me you love me  
Can you say it right now  
Can you tell me in one simple word or ever without
