

Matt Wertz, The Way I Feel

I could talk until my face turns blue
Goin' on bout what I wanna do with you
I'm so tired of being alone, yeah
say this happens nearly everyday
But not to me and that is why I wanna say

CHORUS:

I can't help the way I feel about you now
Everything inside of me is singin out
What would happen if I came real clean
When every girl before has fled the scene
I guess we'll wait and see
