

# Matt Wertz, Wade Through The Night

Lengthening shadows  
Timeless days  
Laughing in the sunlight  
Losing our way  
Grass underneath us  
Sky above  
We're in the middle  
Surrounded by love

Let's kick off our shoes  
And wade through the night  
The air's so warm  
The moon just right  
We'll sing to the stars  
And dance by their light  
As we kick off our shoes  
And wade through the night

When I look around  
I just can't deny  
Everything you  
Everything I  
Tracing your outline  
Against the painted sky  
Connecting the dots  
Between you and I

So let's kick off our shoes  
And wade through the night  
The air's too warm  
Moons just right  
We sing to the stars  
And dance by the light  
As we kick off our shoes  
And wade through the night

We'll hike up our jeans  
And get our feet wet  
Maybe we'll dance until the dawn

Let's kick off our shoes  
And wade through the night  
The air's so warm  
The moons just right  
We'll sing to the stars  
And dance by their light
