

Matthew Sweet, Everything Changes

It's a matter of choices
And a matter of time
For you it's a matter of drive

You will let nothing
Get in your way
You set to conquer
Each single day

(everything) Everything Changes (changes)
But change itself (change itself)
You can take out
What you think you know put it
Back on the shelf

And would you believe me
If I'd spoke my mind?
'Cause nobody gets there they just
Try, try, try

(everything) Everything Changes (changes)
But change itself (change itself)
Like a bird you'd sooner fly away
But you're stuck in yourself
(as everything) As everything Changes.... (changes..)

We stay the same
But we stay the same (stay the same)
You keep turning
Before long you're going to find out
What's in a name

So you look for the answer
Then pull it apart
Tear it up 'til there's nothing there
'Cause it hurts your heart

Everything Changes
And for what you lack
You keep turning
Before long you're going to find out
Everything Changes
It's not hard to tell
Like a bird you'd sooner fly away
