

# Matthew Sweet, Save Time For Me

I was thinking I could wait until the work is done  
But you'll only want to get back out and have some fun  
Sun's lighting up the sky  
And if it wasn't so bright  
I'd come undone

Why can't you save time for me  
There isn't much but it's all that I want from you  
Why can't you save time for me  
Without these moments there isn't much we can do  
As victims of circumstance  
Avoiding our every chance  
We can't solve problems  
Save time for me

I remember when you leaned on my experience  
And I showed you what you had to do to make some sense  
But time moves fast  
And it doesn't last  
For everyone

Why can't you save time for me  
There isn't much, but it's all that I want from you  
Why can't you save time for me  
Without these moments there isn't much we can do  
As victims of circumstance  
Avoiding our every chance  
We can't solve problems  
Save time for me

As victims of circumstance  
Avoiding our every chance  
We can't solve problems

Why can't you save time for me  
There isn't much but it's all that I want from you  
Why can't you save time for me  
Without these moments there isn't much we can do

Why can't you save time for me (repeat) {fade}
