

# Matthew Sweet, Super Baby

No Memory  
Is quite the same  
No gentle breeze  
Can ease my pain

Lover you're the one  
Super baby  
You're the one  
Super baby  
You're the one

Promise you won't go far  
I want you right where you are  
I said it to your face  
So it cannot be erased now

I got a hold  
On destiny  
Yeah I hear the sound  
Of Liberty

Lover you're the one  
Super baby  
You're the one  
Super baby  
You're the one

Promise you won't go far  
I want you right where you are  
I said it to your face  
So it cannot be erased now

A mountain higher  
Than my dream  
A dawn on fire  
You will sing  
You will sing

Lover you're the one  
Super baby  
You're the one  
Super baby  
You're the one

Promise you won't go far  
I want you right where you are  
I said it to your face  
So it cannot be erased now
