

Matthew Sweet, Underground

Me and my girl are going underground
Got no time to tell you what we found
People in this world aren't very kind
And love is blind, love is blind

All we want is on our minds
We don't have a map, we don't follow signs
Seems useless for you to look for attack
No tracking us down and no bringing us back

Me and my girl are going underground
Got no time to tell you what we found
People in this world aren't very kind
And love is blind, love is blind

We are going very far
You can't take a plane, you can't take a car
Seems useless for you to look for attack
No tracking us down and no bringing us back

All we want is on our minds
We don't have a map, we don't follow signs
Seems useless for you to look for attack
No tracking us down and no bringing us back

Me and my girl are going underground
Got no time to tell you what we found
People in this world aren't very kind
And love is blind, love is blind

Me and my girl are going underground
Got no time to tell you what we found
People in this world aren't very kind
And love is blind, love is blind
